PROFILE

Full Stack Developer with over 5 years of experience in building web applications and digital platforms, currently transitioning into mobile development.

Passionate about leveraging technology to solve real-world problems, particularly in African contexts, I am seeking to strengthen my skills in mobile application development.

Highly motivated, autonomous, and results-driven, I aim to design and deploy impactful mobile solutions that are accessible, scalable, and user-centered.

TECHNICAL SKILLS

Front-End

HTML5, CSS3, JavaScript, React, Responsive Design, UI/UX

Back-End
